

Dear Friends,

We are excited to share the success of our February Tasting Week, an annual event we've been hosting since 2020. This year's highlight was the Big Brunello Tasting, which featured 41 different wineries from Montalcino, giving our guests the chance to sample the finest wines from the region.

After the main event, we hosted a gala dinner and had the honor of welcoming **TENUTE SILVIO NARDI**, one of the oldest and most respected winemakers in the area.

We are pleased to introduce a special offer that gives you the exclusive opportunity to select wines directly from their cellar, with vintages dating back to 1968.

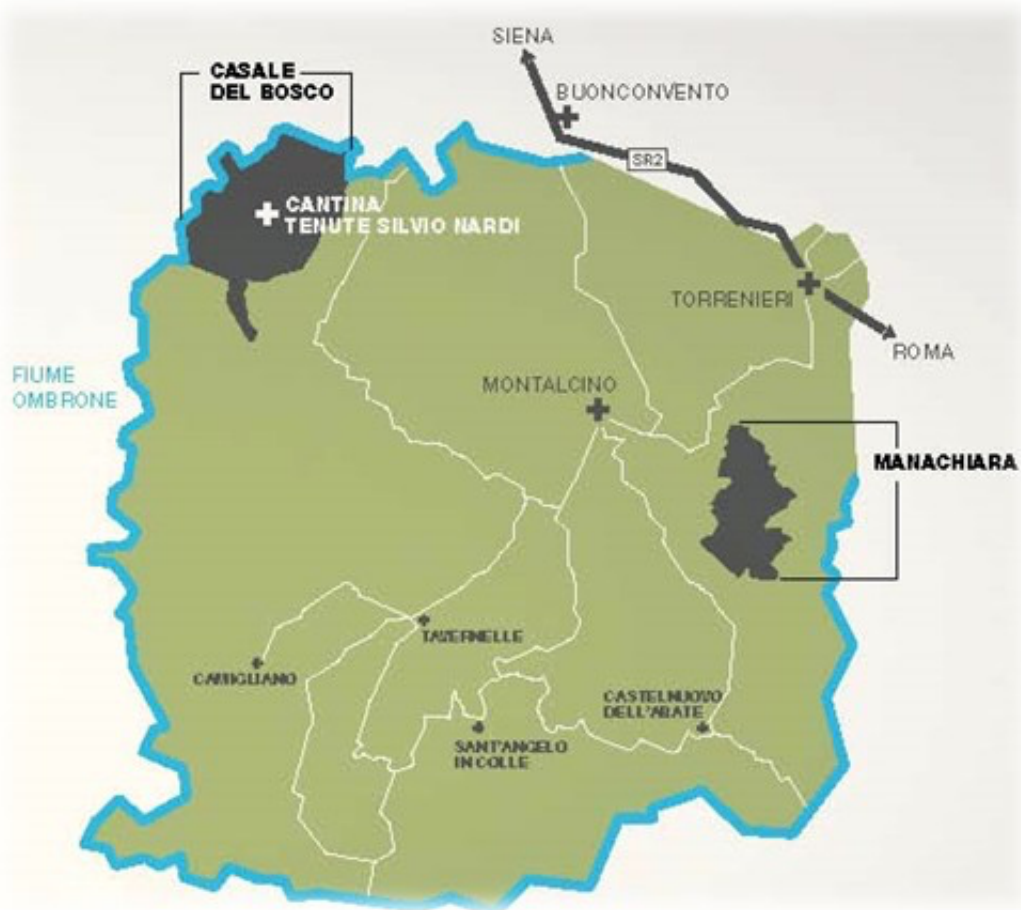

We are thrilled to share this opportunity with you! Please see a presentation of their winery below along with our offer at the bottom of this email.

Tenute Silvio Nardi is one of the oldest producers in Montalcino.

The Casale del Bosco estate, located northwest of the village, was purchased in 1950 by Silvio Nardi, a successful businessman from Umbria, who was looking

for a unique place to spend quality time with his family. He was the first "foreigner" to invest in Montalcino when no one yet believed in what would become one of the icons of Italian winemaking: Brunello di Montalcino.

The first vintage of Brunello he produced was in 1954, 70 years ago! In 1962, Silvio Nardi further solidified his commitment to Montalcino by acquiring a second estate called Manachiara, this time southeast of the village, near the Biondi Santi estate.

Not only are Tenute Silvio Nardi composed of two separate estates in distinct parts of Montalcino, each with different microclimates and soil compositions, but even within each estate, we can trace several parcels with their own unique characteristics. This allows us to find the best combination of Sangiovese Grosso for our classic Brunello di Montalcino, blending the wine from all these parcels according to the specifics of each vintage.

From each of the two estates, we also produce a Single Vineyard Brunello: Poggio Doria from the northwest and Manachiara from the southeast. These wines are only produced when they achieve exceptional quality.

Our Brunello di Montalcino is produced using exclusively large oak barrels, ranging from 30 to 100 HL. For the Single Vineyard Brunellos, however, we begin with a short passage in smaller oak (mainly Tonneaux) and then transfer them to large barrels. All the barrels we use at the winery are not new, as we always prefer the softer touch of used oak for our wines.

Tenute Silvio Nardi has been studying and experimenting in the vineyards for decades, eventually managing to create 4 certified clones, containing DNA unique to the estate, which has been officially recognized by the Italian Ministry of Agriculture.

Our vineyard replanting program was completed in 2024, utilizing these historical Sangiovese clones to further enhance the uniqueness of the grapes grown in our estates.

Silvio Nardi had 8 children and personally managed the business in Montalcino until the mid-1980s, when his youngest daughter, Emilia, began working with him and quickly became the new face of the winery. She was instrumental in expanding the business internationally, while maintaining the classic style of the winery and injecting new energy and ideas into the venture her father had started.

The winery is still in the hands of the Nardi family, 74 years after their father purchased the first estate in Montalcino, continuing to uphold his commitment

to uncompromised quality.

Please see our offer at the bottom of this email. To place an order, reply directly to this email. We are offering the following discounts on all wines in our offer. Mixed cases are welcome!

FREE SHIPPING ON ALL ORDERS STARTING AT 6 BOTTLES

12 BOTTLES - 5% DISCOUNT
24 BOTTLES - 10% DISCOUNT
